

WHIASU Health Impact Assessment Screening Record Sheet

Date:

Conducted by:

Title of programme, policy or project:

Description (including key aims and objectives)

Nature of Evidence considered/to be used (including baseline data, technical and qualitative research, expert and community knowledge)

1. Key population groups affected by the programme, policy or project.

Using the list of **vulnerable and disadvantaged groups** included, assess which groups amongst the general population will potentially be affected by the proposal

Vulnerable groups

Other groups

Screening

Using the **Determinants of health and well-being checklist below**, consider:

- how (in what way either positively or negatively)
- to what extent (significant/moderate/minimal impact)

these groups within the population and the general population itself may be affected by the proposal or that the proposal may have implications for - and summarise it for each section on the screening sheet below.

Any missed opportunities for enhancing the proposal can be listed under the positive (+) column. Any missed detrimental impacts on health and wellbeing can be listed under the negative (-) column. If there are no likely impacts or they are very minimal then move to the next section.

Ask the question: How does this proposal impact upon these determinants, for example, physical activity or diet (within Lifestyles section) in a positive or negative way? Or not at all?

Recommendations

Are the impacts that have been identified above enough to warrant a more comprehensive health impact assessment?

Yes /NO

If No, what are the reasons for not conducting an assessment

Do any additional actions need to be taken as a result of this HIA process?

Yes/NO

If Yes, please outline (list recommendations and/or mitigation/enhancement here)

Recommended Actions

If a further HIA is required, outline next steps (E.g. Date and time of scoping meeting)
